I am an ISTQB Foundation Level certified software tester with a solid background in manual, UI/UX, and performance testing. I have practical experience using tools such as Jira, JMeter, and Cypress. My objective is to apply my expertise to ensure software quality while continuing to grow in the field of software testing. I possess a deep understanding of the Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC), and I am ready to take on new challenges and contribute to a team.

## Achievements

Participated for the first time in the **Slovensko.Digital Hackathon** on November 15-16, 2024, marking my initial experience working on a real project. Contributed by testing the functionality of the search box and verifying external link navigation on the **navody.digital** website.

## Work experience

**Internship(Junior Manual Tester)** Feb 2024 - May 2024  
Vacuumlabs, Bratislava

Conducted manual testing for Vacuumlabs' internal HR application, 'Charles,' focusing on UI/UX testing and defect reporting through Jira.

**Barista** May 2023 - Jun 2024  
The Spot, Bratislava

Developed valuable communication and multitasking skills while transitioning from full time to part-time to focus on IT career development.

**Restaurant Manager** Sep 2020 - Nov 2022  
Elafonisi Resort, Chania

Managed daily operations, coordinated staff, and resolved customer complaints, ensuring smooth business operations and high service standards.

## Self-Practice - Manual Tester

### Independent work during free time(September 2024-Present)

- **Vacuumlabs Website:** During my testing of the Vacuumlabs website, I reported critical defects in the "Apply Now" form, enhancing the user experience for sales applicants. I developed test scenarios for the job application section, identified UI issues, and suggested improvements. Additionally, I used JIRA for bug reporting and JMeter for performance testing to support the development team.
- **Moneyhoon Website:** I detected UI/UX issues and suggested enhancements to improve the overall user interface. I prepared and submitted a detailed defect report, contributing to the website's quality through thorough testing and feedback.
- **Bainry Website:** I conducted thorough UI testing to identify defects, discovering a significant issue with text display when switching from Slovak to English. I prepared and submitted a detailed defect report outlining my findings and suggestions for improvement.

## Certifications

- **ISTQB Foundation Level (2024)**
- **Manual Testing Training 1on1(MindMajix Academy)**

---

## Education and Qualifications

<b>Technical University of Crete (Electronic Engineer)</b> Technical Univesrity of Crete, Chania	Sep 2013 - Jul 2018
<b>Technical High School degree (Electronic Engineer)</b> 1st Technical High School Koropi, Koropi	Sep 2010 - Jul 2013

---

## Courses

<b>The Complete 2024 Software Testing Bootcamp</b> Udemy	Mar 2024 - Jul 2024
I have learned about creating test cases, test plans, and test scenarios. I am proficient in reporting bugs using Jira. Additionally, I understand various testing techniques and the different types of testing, including manual and automated testing. My knowledge encompasses functional testing, regression testing, performance testing, and more.	
<b>Manual Software Testing</b> Udemy	Aug 2024 - Aug 2024
Enhance and deepen my knowledge of software testing, including both manual testing and a thorough understanding of the Software Development Life Cycle (SDLC).	
<b>Cypress from zero to the cloud</b> Udemy	Oct 2024 - Oct 2024
Completed a course on Cypress focused on creating fast, reliable automated tests in JavaScript. Developed skills in test setup, web element interaction, and continuous integration with GitHub Actions, establishing a strong foundation in automated GUI testing and test management best practices.
