ISTQB-certified software tester with experience in manual testing (**UI/UX, functional, performance testing**). Familiar with **Cypress, Jira, Postman**, and **JMeter**. Strong **analytical skills and attention to detail**. Looking for an opportunity to grow in software testing and contribute to a quality-driven team.

Achievements

Participated for the first time in the **Slovensko.Digital Hackathon** on November 15-16, 2024, marking my initial experience working on a real project. Contributed by testing the functionality of the search box and verifying external link navigation on the **navody.digital** website

Work Experience

- Internship (Junior Manual Tester)** Feb 2024 - Dec 2024
Vacuumlabs, Bratislava
 - Conducted **UI/UX** and **functional testing** for **internal HR** and **investment applications**
 - Used **Jira** for bug tracking and **JMeter** for **performance testing**.
 - Created and executed **test cases** based on **acceptance criteria**.
 - Reported defects and collaborated** with developers to resolve issues.

- Personal Testing Projects** Sep 2024 - Present
Independent work during free time, Bratislava

- Tested real-world applications using **JMeter**.
- Practiced writing **structured test cases and reporting defects**
- Automated simple test scenarios using **Cypress**.

- Restaurant Manager & Barista** Sep 2020 - Jul 2024
Various Locations

- Led teams in fast-paced environments, improving **attention to detail and problem-solving skills**.
- Developed strong **communication and leadership abilities**.

- Python (Good)
- SQL (Basic)
- JavaScript (Basic)
- HTML & CSS (Basic)
- DevTools (Basic)

Certifications

- ISTQB Foundation Level (17-September 2024)
- Manual Testing Training 1on1(19-October 2024 MindMajix Academy)
- LamdaTest Manual Testing Certified Professional(16-December 2024)

Education

Electronic Engineer
Technical University of Crete, Chania

Sep 2013 - Jul 2018

Electronic Engineer
Technical High School, Koropi

Sep 2010 - Jul 2013

Courses and Training

The Complete 2024 Software Testing Bootcamp
Udemy

Mar 2024 - Jul 2024

- Learned how to create test cases, test plans, and test scenarios.
- Gained proficiency in reporting bugs using Jira.
- Gained an understanding of various testing techniques and the different types of testing, including manual and automated testing.
- Acquired knowledge of functional testing, regression testing, performance testing, and more.

Manual Software Testing
Udemy

Aug 2024 - Aug 2024

- Enhanced and deepened my knowledge of software testing, with a focus on manual testing.
- Gained a thorough understanding of the Software Development Life Cycle (SDLC).

Cypress from Zero to the Cloud
Udemy

Oct 2024 - Oct 2024

- Completed a course on Cypress, focusing on creating fast and reliable automated tests in JavaScript.
- Developed skills in test setup, web element interaction, and continuous integration with GitHub Actions.
- Established a strong foundation in automated GUI testing and best practices for test management.
